

PAMPSTEP

EMPOWERING LITTLE STEPS WITH JOY !!

PRESENTED
BY
KANAV NANDA

THE PROBLEM – WHY PAMPSTEP?

“Every Step Matters”

- 1) 1 in 200 children globally are born with or face limb loss by the age of 5.
- 2) Most prosthetics are uncomfortable, heavy, or lack consideration for a child's growing needs.
- 3) Families struggle to find affordable, lightweight, and playful prosthetic solutions.
- 4) No established prosthetics brand bridges health, fun, and affordabilits especially for infants.
- 5) Lack of child-friendly, customizable prosthetics designed to cater specifically to toddlers and young kids.

THE SOLUTION – WHAT IS PAMPSTEP?

These are prosthetic limbs that are tailor-made for children, blending comfort, creativity, and care. With soft pastel designs, hypoallergenic materials, and room for growth, these limbs aren't just functional—they're fun! Think adjustable legs with stars and clouds, making every step feel magical.

Lightweight, breathable materials for toddlers

Vibrant, child-friendly design.

Easy-to-use, safe, and adaptable for growing babies

Adjustable prosthetics that grow with the child, reducing replacement costs.

MATERIALS OF PAMPSTEP

1. Outer Shell: Thermoplastic Elastomer (TPE)
2. Comfort Liner: Silicone Gel or Foam Padding
3. Adjustable Components: Polycarbonate Plastic or Aluminum
4. Joint Mechanism: Nylon or Carbon Fiber
5. Aesthetic Features: Non-toxic Paint, Vinyl Stickers, 3D-Printed Designs
6. Fasteners: Velcro or Magnetic Fasteners
7. Sustainability: Biodegradable Plastics/Recycled Materials for packaging

THE BRAND – PAMPERS INNOVATION

“Why Pampers? Trusted Care for Every Step”

- Trusted by parents for decades as the leader in baby care.
- Pampers understands a baby's needs—soft, comfortable, safe, and joyous.
- PampStep builds on Pampers' commitment to innovation and care.

FEASIBILITY – MAKING PAMPSTEP REAL

Manufacturing

Produced with biodegradable, lightweight materials

Collaboration with prosthetic manufacturers for scalability.

Market Size

Globally, around 2 million children are living with limb differences, with approximately 150,000 new cases each year due

The prosthetic limbs market is projected to reach \$2.5 billion by 2030,

MARKETING STRATEGY

Target Audience:

- Families of children with limb differences
- Doctors and child-focused NGOs.

Channels:

- Digital campaigns with emotional storytelling (Instagram, YouTube).
- Partnerships with hospitals and rehabilitation centers.

CSR Impact:

- For every 10 prosthetics sold, Pampers donates one to a child in need, building brand loyalty and goodwill.

CONCLUSION - FUTURE OF PAMPSTEP

"Invest in PampStep. Empower futures. Change lives."

PampStep is innovative, feasible, and socially impactful.
Together, we can bring joy to millions of children worldwide.
